

SUREREND SILICONE FINISH

Surerend through Coloured render systems will guard buildings from extreme UK weather conditions throughout the year – protecting from constant attack by water, frost and sun during the lifetime of the building.

They are formulated using the most advanced raw materials available in the world and are scientifically developed and rigorously tested to the most exacting standards.

Not only are they designed to shield the building from weather, but they also add to the beauty of the design.

SUREREND LTD. **FACADE PROFESSIONALS**

Surerend Silicone Thin Coat Render system has been carefully designed to be flexible, highly breathable and incredibly weather resistant. The silicone resin technology used in our Surerend system makes this ultra-water repellent and extremely flexible and its suitability for hand or spray application makes it easy to apply.

Our Surerend Through-Coloured Render Systems will guard buildings from extreme UK weather conditions throughout the year – protecting from constant attack by water, frost and sun during the lifetime of the building. They are formulated using the most advanced raw materials available in the world. They are scientifically developed to the most exacting standards, and are rigorously tested. Not only are they designed to shield the building from weather, but they also add to the beauty of the design. **GUARANTEED QUALITY** is our passion, and all our products are proven to work in the most demanding conditions. All carry EN approvals and conform to the relevant BS Standards for performance and quality. These, together with a rigorous and independently audited internal ISO 9001 system, guarantee excellence.

All high performance products which are pre-mixed ready to use. Highly polymer and silicone resin modified. The polymer increases flexibility and Silicone adds a highly water repellent quality, repelling water from the surface whilst allowing vapour to pass through the render. They have excellent workability and open times meaning faster application and reduced program periods, and associated site costs. All products should be used as a finish coat in conjunction with an **Surerend** base coat plus render

Surerend silicone finish is available in over 700 colours, colour assistance is available on request.

Packaged in 25kg plastic bucket ,the Pallet QTY 30 Units

Finishing Tool Plastic Float Substrate Prime SP15 Suitable Substrate **Surerend** base-coat Plus / sponge float finished Water Down Max 5% Ready to Finish 10 to 40 mins at 25 - 5°C Coverage Approx. 8-10 M² per 25kg bucket ,Temperature 5°C - 25°C for a min of 24 hrs. Humidity Requirement Less than 85% for a min of 24 hr.
